

FLUXO => Full range of Products Magnetic Particle Inspection & Penetrant Inspection

PENETRANT TESTING

FLUXO P125 - Red Dye Penetrant
Sensitivity 2 - conform to EN ISO 3452-2
Water washable or solvent removable

FLUXO N130 - Penetrant Remover
Agent that removes excess of penetrant

FLUXO R175 - Developer
High Sensibility - High Evaporation Rate
Thin & Homogeneous film with optimized granulometry

FLUXO S190 - Solvent Cleaner
Degreasing Agent - High Evaporation Rate

MAGNETIC PARTICLE INSPECTION

FLUXO 6 - Fluorescent Magnetic Ink
Conform to EN ISO 9934-2 and AMS 2641
High fluorescence and optimized granulometry

FLUXO 3 - Black Magnetic Ink
Conform to EN ISO 9934-2 and AMS 3043
Optimized granulometry and High Contrast

FLUXO 7 - White Contrast Paint
Conform to EN ISO 9934-2
High covering effect with a very thin layer
High evaporation Rate

FLUXO 5 - White Contrast Paint Remover
Conform to EN ISO 9934-2
High Evaporation Rate

FLUXO 307 - 200mL Dose
Fluorescent Magnetic Concentrate
Conform to EN ISO 9934-2

FLUXO 215 - 200mL Dose
Black Magnetic Concentrate
Conform to EN ISO 9934-2

- ✓ All these products are in accordance with RCC-M and ASME Codes - Low contents in Sulfur and Halogens (< 200ppm)
- ✓ Available, deliveries with Certificate of compliance and Analysis Certificate
