

FLUXO Range

MAGNETIC POWDER CONCENTRATES

Conform to EN ISO 9934-2

FLUXO 302	<p>Magnetic Powder Concentrate – Fluorescent – Dilution in Water Concentrate of fluorescent magnetic powder, wetting agent, defoamer and rust inhibitor Dilution at 10g/L in water</p>
FLUXO 307	<p>Magnetic Powder Concentrate – Fluorescent – Dilution in Water Concentrate of fluorescent magnetic powder, wetting agent, defoamer and rust inhibitor High ANTICCOROSIVE Protection Dilution at 20g/L in water</p>
FLUXO 215	<p>Magnetic Powder Concentrate – Black – Dilution in Water Concentrate of black magnetic powder, wetting agent, defoamer and rust inhibitor Dilution at 2% in water</p>

Magnetic & Dry Powder concentrate – Fluorescent - Dispersion directly in water.
 Fluorescent magnetic powder, wetting agent, defoamer and rust inhibitor
 Dilution at 10g/L in water

FLUXO 36	<p>Magnetic Powder Concentrate – Fluorescent – Dilution in oil Dilution at 1% in oil -</p>
FLUXO 33	<p>Magnetic Powder Concentrate – Black – Dilution in Oil Dilution at 1% in oil -</p>
